

*Note sur Lacan et Listing*

Lacan a suivi l'usage des mathématiciens, qui associent au nom de Listing le nœud à quatre. Celui-ci ne figure pourtant dans aucun texte de J.B. Listing (cf. R.H. Crowell et R.H. Fox, *Introduction To Knots Theory*, 1963, Springer Verlag Ed., p. 4). On trouve par contre (cf. ici même) chez lui le nœud à cinq.
